

That next week the newest business in Cypress will open its doors for a formal opening on Saturday. Mr. and Mrs. John Thomas will welcome the public in a grand style, and coffee and doughnuts will be served free throughout the day. We have it on good authority that it was Dan Norland who thought up the name, "Triangle" drive-in, and mentioned it to his wife. But that's just like us gals, we do the talking and get all the credit! See you next Saturday, February 26.

That we asked "Pat" Arnold feebly if he was starting his new store buildings with a basement. Seemed to us as though a lot of digging is in progress. But he says no bargain basements. Just one of the nicest appearing group of four store fronts in southern California. The first time we notice the architect around, we'll find out the correct name for the proposed style of windows and report the information.

That if you are one of the residents in Cypress Manor who has spoken of the critical telephone situation and the fact that it is difficult to reach a doctor or hospital by phone when necessary, you will be interested to know that the telephone company has been making a survey in this territory. Simultaneously with this information comes a notice from the company that "in order to provide service for others in your neighborhood, certain rearrangements are required in the telephone plant which serves you. To accomplish this it is necessary to change the number assigned to your telephone service." In the interests of all concerned, no one will begrudge the great inconvenience this will cause by making stationary and bill heads obsolete, etc., if it really helps give better telephone service in Cypress.

That the Southern California Edison company is inviting its friends and patrons to visit the new district offices in Fullerton next Monday afternoon between the hours of four and eight p.m. Open house is being held at their new location, 232 west Commonwealth avenue.

Dinner Meeting Planned For Public By Demos

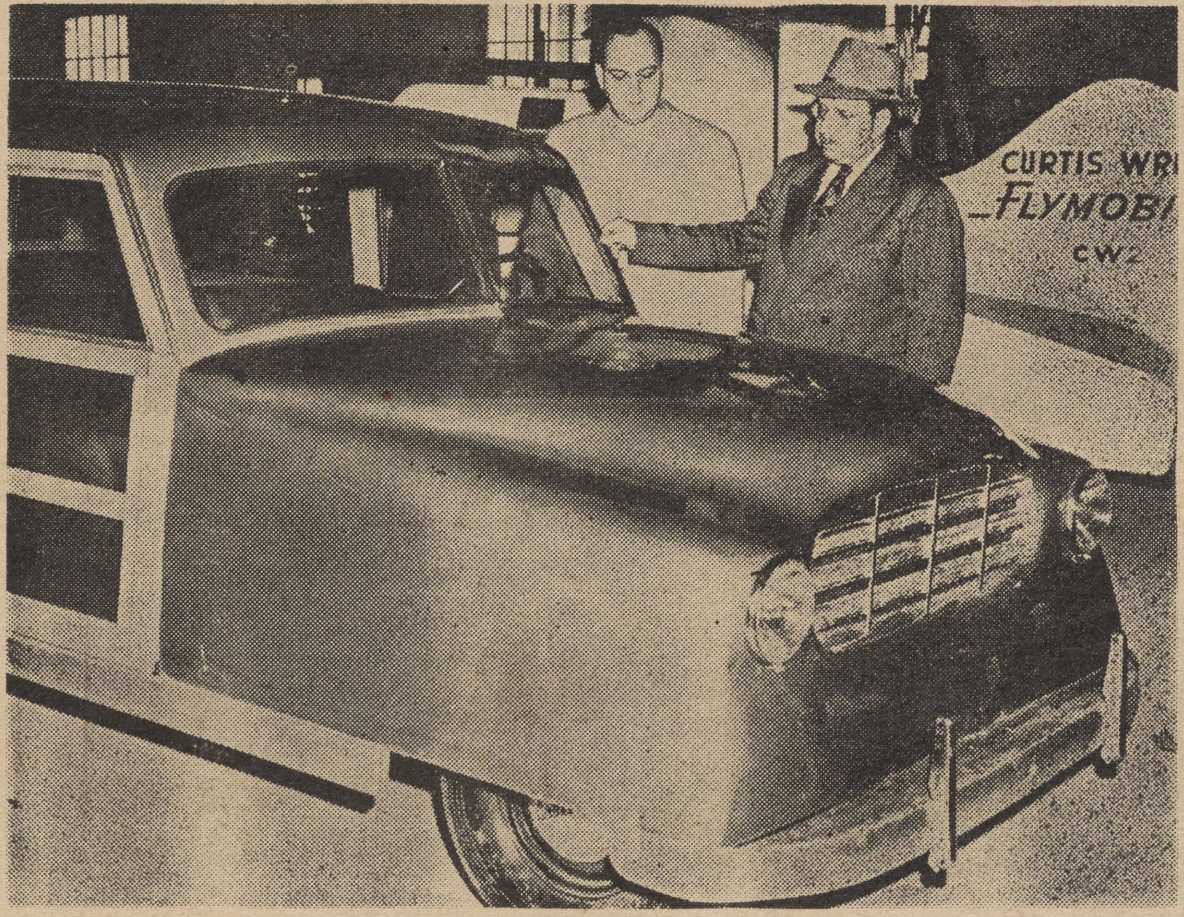

The Democratic Central Committee of Orange County will hold a dinner meeting February 24, at 6:30 p.m. in Santa Ana, at the new Woman's Clubhouse, Sixth and Baker streets.

Frank Twohy, assistant controller, Department of Water and Power, will be the principal speaker. He will discuss the subject "Colorado River Water for Southern California."

Color motion pictures of the Colorado River, and aqueduct, with emphasis on the project and its benefits to southern California, will be exhibited.

Frank Harwood, Santa Ana postmaster, will give a brief description of present day Washington and of President Truman's inauguration, which he recently attended. Herbert Kenny will discuss the pending sanitation program for Orange county, and will answer all pertinent questions from the floor. Persons seeking information on this vital matter will find satisfaction in his remarks.

Tickets for the dinner should be obtained before Monday, February 21. Reservations may be secured from R. V. Hathcock, phone Anaheim 28336. The meeting, both dinner and program, is open to the general public.

MADE IN LOS ALAMITOS — Curtis Wright (right), Los Alamitos automobile manufacturer, and his chief engineer, John Howard, check final details on the Curtis Wright car which they expect to have in production within 30 to 60 days — (Press-Telegram Photo)

P-T.A. President Honored By Life Membership Award

Mrs. Dorothy Lukens was honored at Thursday evening's P.T.A. meeting as the winning candidate to receive this year's vote by secret ballot for the life membership presented each year to an outstanding member. In presenting Mrs. Lukens with her pin and certificate, Miss Elizabeth Dickerson, school superintendent, praised the president for the time and energy she has given to her duties in the local P.T.A. and congratulated the members on their choice of this year's honoree.

Although the universal theme for the February meeting of the P.T.A. is to honor founder's day, Miss Turpin's third grade stole the show at the local meeting. Presenting a skit in which the characters disguised the names of members of the group, the cast carried on an imitation of their elders in a typical business meeting. Teachers and parents, board of education members and the school's maintenance staff shared alike in the gentle mockery. Each student was outstanding in his role, as he mimicked the capable officer or zealous member of the local organization in a convincing costume from the family's wardrobe.

The cast included third graders: Fay Austin, Geraldine Wheat, Barbara Mahaffie, George Alleman, Janice Mason, Billy Essex, Terry Lee Jordan, Ellen Head, Norman Morgan, Janet Kemp, Patsy Hart, Paula Corley Raymond Edwards, Teddy Pender, Evelyn Correia, Michael Bailey, Bruce Duncan, Donald Poor, Jimmy Palmer, Keith Cronin, Bobby McKee, Jeanie Hallmark, and Ernest Speak.

During the business meeting, it was voted to use \$50 from the treasury for the purchase of a coffee maker and additional cups, to more adequately prepare for and serve the large groups which use the school's utility room kitchen for social meetings. The various organizations will be asked to help with this worthy project with similar donations from their treasuries.

The treasurer, Mrs. George T. Alleman, explained that the usual "penny march" would be supplanted at this meeting with a silver offering to raise a sum known as "the founder's day gift." Money collected through voluntary contributions is set aside exclusively for extension work and may not be used for any other purpose. The amount is forwarded to the state, one-half going to the national congress, one-fourth to the district from which the donation was received, and one-fourth into the treasury of the state congress.

Miss Dickerson introduced Mrs. Higginbotham, the new afternoon kindergarten teacher, and also her husband, who was a guest. Mr. and Mrs. Higginbotham arrived recently from Hawaii, and have established their home in Santa Ana.

Room count was won by Mrs. Higgin's, Miss Turpin's and Mrs. Lissner's grades. These classes will be privileged to keep the figurines for having the highest number of representatives present at the meeting.

Honoring the 44th birthday anniversary of the parent-teacher's association, a short playlet was presented by several members which clearly pictured the reasons for the organization and its aims and accomplishments. After the

Combined Meeting Of Teen - Canteen

Under the direction of Herbert Mandel, youth activities' chairman for the Artesia Lions Club, and Stan Doerr, representative of the Chamber of Commerce in his capacity as chairman of a similar committee, the teen-agers have been moving forward in their plans for a Teen-Canteen in Cypress.

Meeting in the school house last Monday evening, the low - teen group perfected its organization by electing the following officers: president, Eddie Updyke; vice president, Mike Troop; secretary, Shirlee Boudreau; treasurer, Lois Valentine; sergeant-at-arms, Monte Ziebell; public relations, Gail Rathbun; and publicity, Erling McKenzie. Wayne Harris and Kennon Laird.

On Tuesday evening, officers representing both the low - teen group and the high - teens met together with Mandel and Doerr. Also present were a number of interested adults. An explanation of the purposes of the teen-age canteen movement and duties of the officers was given. The necessary papers are being prepared which will allow for the organization to be incorporated.

CALIFORNIA'S "SNOW" CONTINUES HUMOROUS

The All-Year club, whose job is advertising southern California's half billion dollar a year tourist industry, received a copy of the Snow Business Index of the Federal Reserve Bank of Boston recently, with the surprising plea:

"Memo to All-Year club. Please give us back our snow! You have enough tourist attractions without adding ski lifts to orange groves."

The index reported New England ski resorts suffered heavy losses — because of lack of snow.

Various ingredients had been combined by the chef called "experience," the resulting completed birthday cake was revealed.

The real anniversary cake was served with coffee in the utility room to the members and guests present during the social hour which followed the meeting.

Inventor Building New Light Motor Car At Los Alamitos Sugar Plant

California is fast gaining fame as an automobile building state second only to Michigan. If plans of Curtis Wright, auto and light plane builder, are successful, Los Alamitos may some day rank high in the state as production center for one of the country's outstanding light cars.

Wright's project may employ 1000 people in a short time if the new car finds a ready market and the early stages of production are being carried on now in the old sugar refinery plant at Los Alamitos.

Wright plans to manufacture a four cylinder auto designed to carry up to six passengers, depending on the model. The car will sell for from \$1350 for pickup truck to \$1465 for the suburban sedan. Skel-

CALLING ALL BOYS

Calling All Boys

Calling All Boys

(Who ride bicycles downtown)

(An editorial)

What is your secret ambition when you grow up? Do you want to be president, a highway patrolman, or a professional man like some grown-up you particularly admire? Do you long for a day when you can carry important looking books and have your desk cluttered with papers like the high school and college kids do? Never having been a boy, we don't know what they think about.

While you're still a youngster, and waiting for these momentous occasions to come to pass, there is a small matter to promote good citizenship which you could help accomplish right now. Boys do not realize it, but bicycles parked or lying on the sidewalks in our limited business district is creating a distinct hazard to those on foot. Some people are afraid of dogs. Others are afraid of horses. Some of us are just afraid of boys on bicycles, moving or stationary. We can't tell by the look in your eye what is in the back of your minds. But we know we have only to suggest that you are the cause of concern when you congregate in such numbers that foot traffic is impossible and you will cooperate with the members of the chamber of commerce in eliminating this situation.

We're going to do our share in helping the merchants by parking the "yellow demon" off the main street and walking a few steps, so that people driving from a distance can more readily find a place to stop. This is an inconvenience in more ways than one, since the sight of the car is a signal that we are around and the office is open. However, let it not be said that we can't keep up with our town's boys in helping to make it a better community in which to live.

So, while we're waiting for one of you to be president, let's face the bicycle and parking problem and all work together to make our downtown district more accessible to the people who wish to patronize the home-town merchants.

L. A. County Supervisor To Address Ass'n.

Secretary Wm. H. Gallienne of the Orange County Associated chambers of commerce announced today that Raymond V. Darby, distinguished chairman of the board of supervisors of Los Angeles would head a group of outstand-

Raymond V. Darby

ing speakers at the next monthly dinner meeting of the chambers February 22 at the Santa Ana Community Center, 1104 West Eighth street, Santa Ana.

The sewer bond election to be held February 28 with emphasis on the pressing need of an adequate sanitation outfall disposal system for Orange county, will be the main topic of the meeting. Darby is expected to review the similar problems faced by Los Angeles county in years past.

Other speakers who will offer expert opinions on the critical sanitation problems as a result of inadequate sewage disposal in various sections of the county will include Dr. Edward Lee Russell, county health officer; Willis H. Warner, chairman of the board of the Orange County Supervisors and general manager of the Orange county Sanitation districts; Herb Kenny, general chairman of the citizen's committee of the Orange county districts sewer bonds; E. E. Friaby, chief of the division of sanitation of the Orange county health department and Loren Blakeley, consulting engineer.

Missouri Couple Visits Cypress From Mexico Tour

Mrs. E. Cutter, on Walker street, entertained Mr. and Mrs. H. Donelson of Fairfax, Missouri, last Monday and Tuesday. Mrs. Cutter's cousin, Mrs. Donelson, was at one time a secretary at Scarritt's Bible college when it was located in Kansas City. It has since been moved to Memphis, Tennessee.

Her very dear friend was secretary to the president of the college, and later became a missionary in Monterey, in old Mexico. The Donelsons stopped in Cypress en route home from a visit in Monterey, where Mrs. Donelson had renewed her acquaintance with her friend. They had many interesting stories to tell of their experiences while visiting.

Mr. and Mrs. Donelson, who were driving, expected to visit in Ventura county and also at Needles before they reached their home in Missouri, where they own a turkey ranch.

Special Baptist Revival Meetings

The Reverend Arthur King, pastor of the First Baptist Church, is announcing a series of revival meetings in this issue to begin on Sunday, February 20, in the church here located at the corner of Watson and Camp streets. H. Grady Lambert, evangelist, is pastor of the Fifth Avenue Baptist church in Pomona. Only six months old at the time the Reverend Mr. Lambert began to serve his church, it has increased in membership from 35 to over 250 in the year and six weeks he has been there.

The Reverend Mr. King has had occasion to be with Evangelist Lambert two times before in similar meetings, and states that he has always found him to be very popular with his audiences, especially among the men. He will bring an inspirational message each evening.

These meetings will be open to the public, which is cordially invited to attend.

C of C Hears Discussion of Vital Subjects at Meeting

New Building Going Up In Cypress

Lincoln avenue presents unusual activity in the center of the business district this week as work gets underway on the new four store building being constructed by A. E. (Pat) Arnold. As the foundation is being laid, it is disclosed that the structure will be 75 feet by 50 feet, and will extend from the building occupied by the Cypress cleaners, east to the small building which houses Rick's watch shop.

Architect Clyde Watson, of Long Beach, has planned for Cypress an unusual and attractive stucco building with an ultra-modern glass frontage.

Is Graduated From Training

Mr. and Mrs. Frank Noe and Russell and Billy Jim attended the graduation exercises in San Diego last week of their son and brother, Gene. A member of class 15-49, commencement was held February eleventh for the 66 members in the United States naval hospital corps school.

His name on the honor roll, Gene was third highest in the class. Three boys tied for second place honors, with only a difference of one point. It was pointed out by the school's officials that the class being graduated held the highest scholastic average in the history of the school. Special examinations were given to finally decide the grades.

Noe is currently stationed at the Long Beach naval hospital. He enlisted for a one-year period in the navy, and it is expected that he will serve the remaining six months stationed there.

Man Fatally Hurt In Truck - Scooter Sideswipe Crash

A motorbike rider was fatally injured Tuesday night and a truck driver hurt when he abandoned his heavily-loaded gasoline tanker after a sideswipe crash on Lincoln boulevard near Euclid Ave., east of Cypress.

The tanker burst into flames, lighting the night sky and bringing throngs of local people to the scene. Luckily, its load of highly-volatile gasoline did not catch on fire.

Dead is Robert D. Hedger, 28, of 8915 Euclid avenue. He succumbed at 7:15 p. m. at Anaheim Community hospital without regaining consciousness from the hurts he suffered 25 minutes earlier when his motorbike and the Anaheim-bound truck sideswiped.

John D. Hurley, 29, of Wilmington, the truck driver, pulled his heavy vehicle sharply off the road. It sheared off and knocked down a telephone pole, burst into flames and headed into an orange grove. Hurley leaped to safety before the flames enveloped the motor and the cab suffered a back injury in his scramble from the truck and as he fell to the ground.

State Division of Forestry crewmen from the West Anaheim station extinguished the flames on the truck in short order and kept them from spreading to the trailer, reportedly loaded with 6800 gallons of gasoline. Officers said in a truck traveled 150 feet before shearing off the pole and came to rest 60 feet farther on in the grove.

Hedger leaves his parents, Mr. and Mrs. George Hedger, and a sister, Ann.

That the boundaries be permanently set for Cypress and also those of surrounding towns was recommended by members when the Chamber of Commerce met last Monday evening in the school house, with Dick Hathcock presiding. It was reported by Fred Mackay that he had been approached by officials of the chamber of commerce in Stanton, asking that Cypress consider its boundaries so that Stanton could also make a decision. The reason there is a need for a permanent solution to this problem at the present time is because of the fact that an official census will be taken next year. It was decided that the highway and roads committee, of which Mackay is chairman, should make the necessary contracts with members of communities surrounding Cypress, and that the matter would be left in the committee's hands and a report made at a later meeting. James Bryant, owner of the Cypress airport, reminded chairman Mackay that an airplane was at his disposal to be used at any time a survey from the air would expedite the work of the committee. In this connection, also, it was recommended to investigate proper sites for the placing of the markers at the entrance to town from each direction, but to delay any decision until the boundaries of the Cypress area were determined and duly entered into the minutes of the organization.

In the matter of the recent discussion concerning the moving in of old houses under the so-called "franch act," it was explained that the board of supervisors now has this problem under consideration. If a house is unfit to be considered in its present condition, it is contemplated to request posting a bond before moving. After the location has been reached, if the financial resources were used up in the moving itself, the money posted for bond could be used to make the necessary improvements.

It was pointed out that the organization has appointed Stan Doerr as chairman of youth activities, in place of Preston Allen, resigned, and that the Teen-agers are not being sponsored by the group, in their effort to establish a Teen-Canteen, but were given representation in their behalf.

Several residents have decried the fact that there is but one pay telephone booth in Cypress. Stan Doerr reported unofficially that the telephone company is making a survey and it is possible that some action will be taken in the future to relieve the situation.

Upon vote of the members, Secretary Noe is to write the Public Utilities Commission protesting action of the Pacific Electric railway to discontinue its passenger service on the Santa Ana line, a service upon which many residents in this area rely. It was also voted that a letter be sent to other chambers of commerce along the right-of-way notifying them of this action and asking that they take similar steps.

Forrest Lowrey represented the physically handicapped in a plea to the organization to petition the youngsters who ride bicycles to be less careless of the use of the sidewalks and curbs, pointing out that the presence of bicycles scattered hodge-podge on the sidewalk is a definite menace to those who are handicapped, and also to the elderly members of the community. It was decided to ask the cooperation of the merchants to see that bicycles are not allowed to be congregated in one location; a safety film and special assembly will be sought for a school assembly; the Boy Scouts will be asked through their leaders to give this problem some attention, and the local newspaper was asked to editorialize on the subject. It is possible that bicycle racks might be placed in a convenient location to aid the boys in overcoming this hazard to pedestrians.

President Hathcock reminded members of the sewer bond election scheduled for February 28, and (Continued on Page Four)

GEORGE WASHINGTON

George Washington was anything but a hero to some of the people of his day. He was criticized for everything from his politics to his personal habits.

But the petty jealousies and personal animosities have passed with the passing of time, and now, a century and a half after his death, we see the man and his deeds in their true perspective.

We see him as the inspiring and dauntless leader of the ragged Continental Army, fighting not only the British but the political intrigue against him in Philadelphia. We see him as the influential chairman of the Constitutional Convention who helped save that convention from collapse. We see him as the wise and farsighted first president of the infant United States.

Washington said in a letter to President Adams in 1798, "My whole life has been dedicated to my country in one form or another." Anyone familiar with his career would not doubt that statement.

It was largely because of this devotion to his country that the Colonies were able to break free of British rule, it was because of this devotion that he severely rebuked attempts to make him king, it was because of this that he worked to establish a government of laws and not of men.

Whatever the objections were to Washington's politics and personal habits, the point to be noted is that time has obscured his critics while revealing his true stature. The honor we pay him on this 217th anniversary of his birth is an honor well deserved by a great leader who helped lay the foundations of a great nation.

I RISE TO REMARK

By John Phillips

Last week I had the unusual pleasure of being invited to a small meeting to hear a recently arrived Englishman talk about conditions in that country. He is going to California and probably can be secured for at least one talk in the 22nd district and if so, I hope you, who read this, will make every effort to hear him. His name is Cecil Palmer and he is the British publisher whose list of authors includes Shaw, Chesterton, Arnold Bennett, H. G. Wells, and other names well known in this country. He is giving his time to an effort to make us understand just what happens to a nation when national socialism creeps in. Don't miss him.

Sticking to figures and facts, his statements give us serious thought. Here are a few. Great Britain bought the railways for \$4 billion, giving the stock holders, not cash, but 3 per cent stock, redeemable by the Railway Commission any time between July 1987 and July 1988. The Commission announced that the INCREASED revenue under government ownership would be \$260 millions a year; last November it was hinted that the increase would be only \$138 millions—actually the loss was \$112 millions. The trains are slower, the fares higher, the service poorer. The railway union is asking a wage increase of about \$2.50 per week. If granted, the additional cost will be \$15,000,000; if refused there will be a transportation strike.

Steel is the only great industry not nationalized. That bill is now before Parliament. It was said frankly, in debate, that once steel was nationalized, the "citadel of capitalism" would have been captured. In 1933, before nationalization, COAL produced about 227 million pounds; steel about 10 1/2 million tons. In 1948, coal had

been taken over, and was given a quota of 211 million pounds (less than 1938), while steel, still free, was given a quota of 40 1/2 million tons. The results: coal produced only 208 million pounds, steel produced 15 million tons. Coal prices are 145 per cent higher than pre-war; steel prices only 7 per cent higher. Coal, in its first year of government ownership LOST \$44 millions, in spite of an increase in the number of workers from 718,000 to 726,000.

Space limits me on the other industries, but I want to mention socialized medicine. England went in with high hopes. Less than 2000 doctors stayed out. Today, 2500 have joined an organization called Freedom in Medicine, to undo the nationalization of health.

There was an encouraging note. Palmer told of speaking to the employees of an industrial plant recently to which he wouldn't have been invited a year ago, or if invited, would have been badly heckled. He was invited back twice. Today, of the 1800 employees, union members, 800 now belong to an organization to bring back free enterprise to England.

I rise to remark: it is easier to keep the Republic, than to get it back.

School News

Cypress Elementary School

Local Students

Win Snow Trip

Because they had secured six starts over a given period of time, the following carrier boys were rewarded by the Press-Telegram in Long Beach with a trip to the snow last Sunday: Henry and Ralph Mason, Howard Coffman, Billy Schmitt and Bill Patterson. Over 200 boys in the territory shared in the treat, and were transported to Lake Arrowhead by means of five chartered busses.

CHANGES NOTED IN SCHOOL FACILITIES FOR GROUP MEETINGS

From now on until further notice, all social events will take place among club groups and organizations in the schoolhouse proper. The VFW and boy scouts will meet in the utility room instead of in the scout house. The chamber of commerce meetings will be held in the auditorium, on the second and fourth Mondays of the month, the regular meeting night.

School Movie

Next Friday

The boys and girls will be given an opportunity to view the full-length movie, "Sandy gets her man," in the school auditorium on Friday afternoon, February 25, at one o'clock. The admission price is 15c. As the name implies, this is a picture starring the lovable Baby Sandy.

Those children not going will be excused and taken home by bus, as well as the children who will attend the show.

Speaker Will Tell Atom Uses At Anaheim Forum

"Atomic Energy for Peace," an interpretive lecture by David O. Woodbury, science authority, will be presented at the Anaheim Public forum Monday, February 21, at 7:30 p.m. The free lecture will be given in the high school auditorium.

Woodbury, a graduate engineer and a contributing editor of Collier's Magazine, has made a specialty of interpreting American science simply and dramatically, according to Ralph Focht, forum director. Woodbury is the author of several popular books on scientific subjects, including "The Glass Giant of Palomar," "Colorado Conquest," and "Builders for Battle."

Woodbury's lecture Monday night will give an intimate but untechnical story of the vast promise for better living and better health offered by our new servant, the atom.

Brownies Enjoy Anaheim Party

A father and daughter social event for all of the Brownie organizations in west Orange county was a highlight this past week for local members and their fathers. Appropriately named the "Sweetheart" potluck dinner, the event was held in the Fremont school cafeteria in Anaheim. The group from here, organized among the girls in the fourth grade, numbered 17 children and 11 grown-ups, a fine representation. Mrs. G. J. Richers is the leader, and Mrs. George Dykstra, assistant.

Schedule Of Concerts In Nearby Towns

Holders of tickets for the Community Concerts are reminded of the following numbers which are still coming.

February 18 — Appleton and Field, duo - pianists, Huntington Beach.

February 22 — Appleton and Field Excelsior Union High School.

February 23 — Sanroma, pianist, Fullerton.

March 7 — de Paur's Infantry Chorus, Santa Ana.

March 7 — John Sebastian, harmonica, Newport Beach.

March 24 — Jane Hobson, soprano, Excelsior.

April 11 — Paul Draper, dancer, and Larry Adler, harmonica, Fullerton.

April 14 — Bartlett and Robertson, duo pianists, Downey.

It is suggested that all ticket owners clip this list for future reference. These concerts and recitals are all held in High School Auditoriums of the towns listed.

Missionary Will Speak of Modern Miracles Monday

Reverend Everett Howard, recently returned missionary from the Cape Verde Islands, will speak Monday evening at the Cypress Church of the Nazarene, at 7:30 o'clock. He was the first protestant missionary in over 400 years to the islands and will tell of his twelve years' experience which included such miracles as the healing of lepers, water sprinkling forth from a rock wall and the conversion of an entire village at eleven o'clock one morning.

The Reverend William D. Howard, pastor of the local Church of the Nazarene, is especially happy to welcome the missionary who is his brother. Everett, who is a native of Tennessee, attended college in Bethany, Oklahoma, and entered the missionary field in 1935. He plans to return to the islands in April, and will be accompanied by his wife and two children.

CYPRESS PERSONALS

Mr. and Mrs. Leon Ferguson had as their week-end guest Mrs. Ferguson's sister, Mrs. Bill Jolly, of Tucson, Arizona.

Mrs. Percy Coffman has returned home from a visit of several days duration at the home of her sister, Mrs. Irma Bridges, in Riverside.

Mrs. Mamie Mason of Long Beach spent several days visiting at the home of her son-in-law and daughter, Mr. and Mrs. Paul Galoway of Haldor place. She attended the meeting of the Centralia Parent - Teacher association Monday.

Friends of Steve Luther were sorry to learn of the recent death of his mother in Templeton. She leaves four sons and was a former resident of Cypress and Garden Grove.

Mrs. Maybelle Dyer has been granted a permit to build a duplex on her property on Camp and Watson streets.

Earl Sartwell and his brother-in-law, John Manns, who is spending the winter in Long Beach, attended the picnic in Bixby Park last week-end for residents from North Dakota. A large number attended the picnic, giving an opportunity to renew old acquaintances.

Mrs. Forrest Lowrey has been confined at home with a severe cold. Penicillin was administered under the doctor's orders, and she is somewhat improved, although not able to leave home.

Mr. and Mrs. Robert McKee, 5311 Bishop street, are the parents of a seven pound three ounce boy born on February tenth in Anaheim community hospital. The lad has been named "Larry." He has two older brothers.

The paragonage of the Church of the Nazarene on Walker street is being prepared for occupancy by the new pastor and his family, the Reverend William D. Howard. Painting, papering, and a general spring cleaning is being accomplished by members of the church. Especially noteworthy is the addition of carpeting and a new refrigerator to add to the comfort and beauty of their home.

Guide for Voters on Sewer Disposal Project Election on February 28

1. Existing Sewer Facilities
(Editor's note: This is the first of two articles describing the sewerage disposal problems in Orange County generally and Sanitation District 3 specifically. District 3 embraces this community, so the series is deemed appropriate with the Sewer Bond election pending February 28.)

The present joint outfall sewer system for Orange County is overtaxed to the danger point in the preservation of health. That is the report from county health and engineering officials.

There is extreme danger of pollution of county beaches, pollution of the county underground water supply, as well as a menace to health from typhoid because of inadequate, heavily loaded sewers. Combined wastes since the war have imposed more load on the diluting ocean waters than they can safely handle. The State Board of Health has urged an immediate solution.

The sewer system was built in 1924 at which time the county population was approximately 30,000. Orange County today has a population of 200,000 with prospects for 500,000 in 1950. At present, sewer trunk lines are flowing at capacity and the load at the disposal plant is so great that 24-hour chlorination must be maintained at great expense, to avoid beach pollution and quarantine.

Sewer collection in District 3 was suitable for the population of 25 years ago, but not for today. The western half of Fullerton is District 3, Buena Park Sanitary District and La Habra Sanitary District have collecting sewers installed over most of the built-up areas. Their collection wastes discharge through outfall into the joint outfall sewer which discharges into the ocean.

The present ocean outfall line extends 2700 feet off shore from the mouth of the Santa Ana river. A 7000 foot line is recommended by engineers. Water depth at point of discharge is approximately 35 ft. and discharge can be made only at high tide. The new line would discharge at a water depth of 60 feet, another safety factor.

La Habra Sanitary District and the area in the westerly portion of Fullerton drain by gravity to a pumping plant at the intersection of Magnolia and Orangethorpe, but it is necessary for Buena Park to pump its sewage at this point.

The U. S. Naval Reserve Air Base, located in the westerly part of District 3 has a system of collecting sewers and treatment plant. Effluent disposal is into the old channel of San Gabriel river.

Brine wastes originating in the

oil fields in District 4 are treated by the oil companies and are then transported to the ocean for final disposal, through private or public drainage systems.

The remainder of the territory within District 3 including the 9 smaller communities, utilize cesspools, septic tanks and other means of local waste disposal.

2. Proposed Sewer Facilities
The preceding article dealt with the existing sewer facilities in Orange County which have been declared inadequate for today's population. This article contains engineer's recommendations for a suitable sewer system.

District 3, in cooperation with Districts 1, 2, 5, 6, 7, and 11 would construct, own and use a joint outfall near the Santa Ana river between Ellis Avenue and the ocean, and a joint sewer treatment plant at that location. These sewerage works would be constructed within the next 10 years.

The proposed sewerage works is considered to be a safe, adequate means of collection, treatment and disposal of the sewage for the loads anticipated.

Joint construction with other county sanitation districts would include land and marine sections, extending from the proposed joint disposal plant near the mouth of the Santa Ana river southerly to a terminus in the ocean 7000 feet offshore in 60 feet depth of water. The outfall would be constructed with 78-inch reinforced concrete pipe. The section of outfall extending from shoreline to a point 2000 feet seaward at a water depth of 38 feet would be completely buried below ocean floor to protect it from ocean currents, storms, and beach erosion. This would in turn be surrounded by a heavy rock structure similar to a breakwater. Beyond a depth of 38 feet wave action and bottom erosion are slight and rock embankments provide suitable protection for the pipe.

The joint disposal plant (No. 2) would have treatment facilities for processing sewage. The plant would convert sewage sludge into valuable fertilizer which would pay 50 per cent of the cost of operation and maintenance at the treatment plant. Capacity of the treatment plant would be 49.4 million gallons per day on the basis of one-hour detention in the sedimentation tanks.

Four trunk lines will also be constructed which will be connected to existing lines. (The second article in this series will appear February 24, and will deal with the cost of the proposed sewer facilities to be built if the Sewer Bond Proposal is passed February 28.)

A BLACK EYE TO ORANGE COUNTY!

DO YOU KNOW THAT . . . ?

The Orange County health department has had to refuse permits for new subdivisions in certain areas because cesspools cannot be installed due to the high water table and there are no sewer facilities.

This means a standstill for building, one of the county's leading industries employing thousands of men; preventing a solution of the housing problem and keeping new residents out of the county.

The Orange County health department has been forced to advise against new factories and industries being built in various locations due to the lack of available sewers.

The State of California has severely criticized sewage disposal in various districts of the county, branding the situation as a menace to public health.

Leading physicians in all localities have condemned the present inadequate sewer disposal system as a critical health threat with epidemics possible at any time.

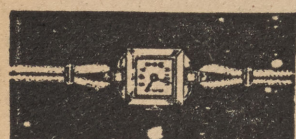

The only answer to the growth of the county and the safety of the health of every man, woman and child is an adequate outfall sewer system for present and future needs.

THE FLYING FOUR
safety rules for kite flyers

FLY YOUR KITE the way the experts do—the safe way! All the "champs" get more fun out of kite flying by observing these four simple safety rules:

- 1 Fly your kites in an open field, away from electric power lines and other overhead obstructions.
- 2 Be sure the string is perfectly dry.
- 3 NEVER use wire, tinsel or metallic string.
- 4 If the kite catches in a power line, let go immediately. Don't pull! Phone the company owning the line and a lineman will get your kite for you.

SOUTHERN CALIFORNIA EDISON COMPANY

Los Alamitos

Mrs. Frank J. Watte, Phone L. B. 35348

Every body is invited. The doors of the St. Isidore rectory will be opened wide to all Bingo fanciers. A lovely door prize will be offered, and refreshments served. Friday, February 18, is the date, so come over and enjoy yourself.

The Good Neighbor's Club met Wednesday at the home of Phylis Cloud in Garden Grove. Two members were congratulated on their birthdays — Miss Crawford and Mrs. Larsen. The main topic of the meeting concerned a change of date. The club will meet the first Wednesday of the month, in the future. Following the meeting the ladies played Bingo. Refreshments of coffee and cake followed.

Mrs. Evelyn See, Farquhar avenue, was installed as treasurer of the Emblem Club No. 106, Long Beach. The ladies installed were gowned in white and the room was decorated in a Valentine theme. The Monrovia Drill Team performed and Mrs. Lucille La Bonte sang. Following installation the Emblem ladies entertained their guests with coffee and cherry tarts.

Mrs. Cecil Cue spent a few days in Los Angeles, at the home of her cousin, Mrs. Zora Tidrick.

Lydia and Albert Watte celebrated their first anniversary on February 11. The young couple enjoyed a movie and then went dancing at the Hilltop, to commemorate their wedding day.

Mr. and Mrs. James Lynch, 11092 Lexington drive, escorted Mrs. Lynch's sister, Myrta Loy and her fiancé, Leroy Kleinsmith, to Las Vegas, Nevada. Myrta and Leroy were married in the First Baptist Church. The best man was Alton Peterson of Vista, California, and Dorothy Lynch was matron-of-honor. The two couples went to the Flamingo Club, the Thunder Bird and visited Boulder Dam.

Bob and Joe Stevens, 11162 Lexington drive, were recipients of congratulations from friends for their seventh anniversary. Mr. and Mrs. Roy Pults, Mr. and Mrs. James Lynch and Mr. and Mrs. Herb Karnes, and James Stevens helped them make it a gay evening.

Mr. and Mrs. Viola Brown spent the day in Burbank with Mr. and Mrs. George Dowson.

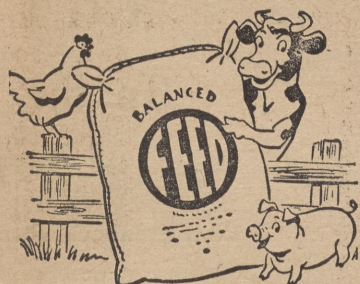

Mrs. Emma Taylor of Rushville, Nebraska, is spending a few days in the Ray Cue home.

FULLERTON TO GET GIRLS' SOFTBALL REGIONAL TOURNEY

The Buena Park Lynx will again be the host team in the women's class when the Southwestern Regional Softball tourneys are held in Fullerton the five days preceding Labor Day. This announcement was made when it became known that the tournament had been awarded to the sponsoring 20-30 Club of Fullerton. The Fullerton All-Stars will be the defending champions and host team in the men's division.

It was also learned this week that Orange county will have another, or third, girl's softball team with the reorganization of the Orange Lionettes. Always tough competition for the Lynx, the Lionettes will be tough again this year if rumors are true that Bertha Regan and five other former members are returning.

It was decided at a meeting at the Ralph Brody home Friday night, to hold the first spring practice at Buena Park Recreation Park on Sunday afternoon, March 20. Manager Hill reported on the League meeting at Phoenix and general plans for the coming season were discussed.

WE SPECIALIZE IN DAIRY AND POULTRY FEEDS. WE ALSO HANDLE PILLSBURY'S, ACE-HI, GLESSBY'S, RANCHWAY, AND QUAKER OATS RABBIT AND CHICKEN FEED.

New Girl Scout Troop At Laurel

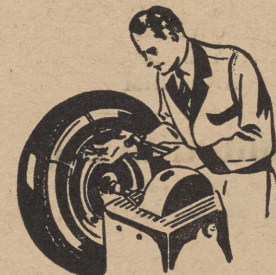

At Wednesday night's meeting of the American Legion auxiliary of Los Alamitos plans were made to entertain the County Council which will meet at the Midway City Legion hall on March eighth. The local unit will be hostess group at the noon luncheon.

It was voted to sponsor a newly formed troop of eight fifth grade Girl Scouts with the committee women to be appointed later.

The girls in the troop began their activities by selling official cookies. This is a nation-wide custom among Girl Scouts to raise funds.

Mrs. R. W. Moore is the mother of a baby girl. The baby was born February 13 at Las Cerritas hospital. Mr. and Mrs. Moore's new daughter's name is Cynthia.

The American Legion installation and box social was a huge success. Louis Aguilar won the television set. However, he decided to put it up for auction. It was purchased by Joe Zamaripa. The Anaheim ritual team performed the installation. Five new members were taken into the post. Special guests were David Proud, Anaheim past commander; Charles Smith, commander; Elva Mae Jones, county council president and commander and auxiliary president of Seal Beach.

C of C Discusses Vital Subjects
(Continued from page one)

announced a dinner meeting on Tuesday evening of the Associated chambers in the community center building in Santa Ana, which will be in the form of a "kick-off" dinner to stress the importance of voting in the coming election.
A social hour followed the business meeting at which time coffee and doughnuts were served.

Naval Reservists To Join Cruise To Point Barrows
Approximately 400 naval reservists will leave civilian life this summer to brush up on their naval training, and will depart on the navy's colorful supply mission to the nation's most isolated outpost, Point Barrows, Alaska. This annual three month's cruise scheduled for June first brings the total year's supply of food, fuel, and clothing to the natives and military personnel living on the fringe of the arctic circle.

Three week's rigorous training for naval reservists in the 11th naval district will be given at San Diego in preparation for the cruise. Additional reservists will be taken aboard at Seattle, and the cruise ships led by an ice breaker will head for Point Barrows by way of the Aleutians and the Bering Sea. Naval reservists will actively participate in all loading and unloading activities and will be furnished special clothing for cold weather operations.

As the number of berths for naval reservists desiring to take the cruise is limited, the navy has asked that all requests for this duty be submitted not later than March first to the Director of Training, 11th naval district.

SPECIAL EGGS
Guaranteed Strictly Fresh — Large Grade A

Require Papers Under G I Bill

Date of receipt of subsistence checks by veterans entering school this term under the G-I Bill (Public Law 346) will depend on proper completion of the certificate of eligibility, according to L. C. Chapman, manager of the Los Angeles Regional office of the Veterans Administration.

"The certificate must be completed in duplicate and handed in at the school," Chapman stated. "Veterans with dependents must claim them on proper forms available at the schools or nearest VA office," he went on.

Subsistence for veterans without dependents is \$75 a month, for those with one dependent \$100, and for those with two or more dependents \$120. Earnings and subsistence combined must not exceed certain ceilings, however. For the veteran without dependents the combined figure must remain below \$210, for the veteran with one dependent \$270, and with two or more dependents \$290.

Veterans taking on-the-job training and studying in vocational schools under the G-I Bill were warned by Ben Lieberman, County Service Officer, that their subsistence allowance may be suspended if their monthly training reports fail to reach the Veterans Administration promptly.

The veteran is the one who suffers even though it may be his trainer who is responsible for the delay. The forms are sent by the VA to the veteran; he must fill out his part and submit it to the employer of institution for completion and transmission to the VA regional office.

By the tenth of each month the VA should have the report (Form 7-1905C) covering the preceding month. If it is not received, the veteran's subsistence allowance is suspended. If it is overdue 60 days, the veteran's training is regarded as discontinued.

Veteran trainees who are having difficulty in getting subsistence allowances are invited to consult counselors at the Orange County Service Office, telephone 2-3516.

STANTON RESIDENTS FAVORS SEWER BONDS

The community of Stanton, with 2309 residents, will vote "yes" on the sewer bonds February 23, Secretary Paul V. MacGlashan of the chamber of commerce prophesied after checking over census questionnaires filled out by Boy Scouts.

He said that of the 537 homes found in the area bounded by Chapman, Lincoln, Handson and Magnolia avenues, a very large majority of the residents indicated they are in favor of the sanitation project and would vote "yes" at the election on the first bond issue, to raise \$8,305,000 to build a treatment plant and ocean outfall line.

Chambers members will be out with their cars on election day hauling voters to the polls.

As the number of berths for naval reservists desiring to take the cruise is limited, the navy has asked that all requests for this duty be submitted not later than March first to the Director of Training, 11th naval district.
